

CAPABILITY STATEMENT

Utility & Mission Critical Infrastructure Construction

PENNSYLVANIA-BASED / VETERAN-OWNED / SDVOSB

DevOps Utility Construction

Supports network owners, utilities, public buyers, developers and prime contractors with telecommunications, underground pathways and coordinated civil field work.

CORE CONSTRUCTION CAPABILITIES

01 TELECOMMUNICATIONS

Aerial strand, fiber and cable placement; pole work, cabinets, splicing and testing; underground pathways.

02 UNDERGROUND & CIVIL

Drilling, excavation, trenching, conduit and duct banks; utility crossings, pathways and restoration.

03 ENERGY INFRASTRUCTURE

Civil and pathway support for utility and renewable energy projects; project-specific scope review.

04 DATA CENTERS & MISSION-CRITICAL

Campus pathways, telecom and underground civil support.

WHY DEVOPS

- Working crews and field leadership
- Aerial and underground delivery experience
- Defined field-to-office responsibility
- Production and constraint visibility
- Coordinated documentation and closeout

PROCUREMENT SNAPSHOT
